

# We need to expand our capacity!

## Lifestyle and Career Opportunities available (Watch this space)

As a result of our increasing municipal infrastructure and services programs, we are seeking applicants for the following career positions. A full description of the positions, Job Application Guide and Key Selection Criteria are available online at [goldcoastcity.com.au/jobs](http://goldcoastcity.com.au/jobs). It is essential that candidates obtain a description and guide and address all Key Selection Criteria. Salary will be commensurate with experience and based on the salary bands listed, and in many cases includes an additional 15% temporary incentive payment (up to \$120,000 packages available to suitable applicants).

As one of the nation's fastest growing regions, lifestyle attractiveness is an intrinsic part of our unique place to live and work. We are seeking motivated professionals to join us in our goal to plan, design & deliver high quality infrastructure and services to the City.

Technical Services Branch is Council's in-house consultancy service provider in the fields of:

- Project planning, design and delivery documentation
- Procurement of infrastructure and municipal services
- Survey (Engineering, Hydrographic and Cadastral)
- Civil materials testing (NATA Registered Laboratory)

Our broad and varied project types include roads, stormwater drainage, streetscape, parks, community facilities, building works and municipal services.

Technical Services currently have opportunities available for Design Project Officers, being engineers, architects, landscape architects, specifier/procurement officers and for CAD designers, technical officers and graduates in the following disciplines:

- Roads design
- Stormwater design
- Mechanical/Electrical design
- Public building and amenities design
- Parks, foreshores and streetscape design
- Tender/procurement for construction and municipal maintenance services
- Structural design
- Stormwater modelling
- Building Services design
- Furniture design

---
