

## Part 7 Codes

### Division 2 Specific Development Codes

#### Chapter 7 Bed and Breakfast Tourist Accommodation

##### 1.0 Purpose

The purpose of this code is to ensure that Bed and Breakfast Tourist Accommodation establishments are small scale and consistent with local residential development. It seeks to facilitate the diversification of the Gold Coast City tourism industry, whilst ensuring that the Bed and Breakfast Tourist Accommodation establishments:

- operate at a standard that is consistent with the accommodation needs of the touring public;
- are located in areas that are readily accessible to the touring public, without impacting upon the amenity of surrounding areas; and
- do not compromise the primary use of the detached dwelling as a private residence.

This code also seeks to promote development that is more sustainable. This is to be facilitated through the design and provision of water and sewerage infrastructure to and within allotments that:

- reduces consumption of potable water by implementing measures that enable the sustainable use of recyclable water for non-potable uses;
- is cost effective over its life cycle; and
- minimises the potential for stormwater and ground water to enter the City's wastewater system.

##### 2.0 Application
