City projects

The City of Gold Coast is working closely with Queensland Health and the Australian Federal Government to support our city in the response and recovery of COVID-19. We're committed to delivering essential services for our community and we continue to work on improvements for the city.

We implement projects that support the direction of the City Vision, strategies and Corporate Plan. These aim to strengthen the city’s economy, protect our environment and improve services and facilities for our residents, businesses and visitors.

Key projects currently being implemented by the City are listed below.

For a full list projects, go to our Projects and strategies category listing.
