

Managing our beaches is going to be increasingly challenging due to the impacts of climate change.

LEARN MORE 

1

Did you know...

...the City regularly monitors beach width, erosion, sand movement, dune vegetation, and water quality to make sure our beaches are healthy?

2

Did you know...

...500,000 cubic metres of sand naturally moves north along our coastline every year?

3

Did you know...

...the City is already working to mitigate climate change risks, including sea level rise, storm tide inundation and coastal erosion?

4

Did you know...

...the City has installed a 7.8 kilometre pipeline to deliver natural sand from The Spit to protect the Gold Coast's northern beaches from coastal erosion?

5

Did you know...

...there are artificial reefs at Palm Beach and Narrowneck to buffer our beaches from waves that cause erosion?

6

Did you know...

...that our coastal dunes absorb wave energy and protect our beaches from erosion?

7

Did you know...

...the Gold Coast has more than 20 kilometres of public and private seawall protecting our coastal infrastructure?

8

Did you know...

...Tallebudgera and Currumbin Creeks are dredged annually to nourish nearby beaches?

How to... fold your chatterbox!

1. Cut along the dotted line and flip to blank side 
2. Fold each corner to the center 
3. Flip over so the folds you just made are face down 
4. Fold all corners to the centre of the paper 
5. Now your paper should look like this 
6. Now fold your paper in half vertically and horizontally 
7. Pop up with your fingers 
8. Your chatterbox is ready!
