

You asked what your waste charge contributes to:

MY WASTE, MY RESPONSIBILITY

Our recent waste management consultation highlighted residents want better visibility of how the Waste Management Utility Charge is used to provide waste and recycling services and facilities. Thank you for this feedback! The below explains how we use the funds collected through the Waste Management Utility Charge.

Waste and recycling centres

This is what you pay for the 12 Waste and Recycling Centres across the city.

Bin collections

This is what you pay for household waste and recycling bins and collections.

Community

This is what you pay for whole community services such as public park waste and recycling bins and the on-demand bulky kerbside collection.

Landfill disposal / Recycling processing

This is what you pay for disposal of waste to landfill and recycling processing.
